1. With respect to the IDS of 6/10/03, the document entitled "Sunday Cruddy Sunday" has not been provided to the examiner for review so it has not been considered. Applicant is reminded that if the document is submitted after first action, the IDS rules for after first action must be complied with. See 37 CFR 1.97 and 1.98.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-32 are rejected under 35 U.S.C. 102(b) as being anticipated by DeLorme et al. (5948040).

For claims 1-4,8-32, DeLorme discloses a system and method for allowing a consumer to plan a trip. The planning includes allowing the consumer to purchase or obtain tickets (reservation) to an event such as a scuba diving charter, an outdoor expedition, restaurant reservations, theme parks, tours, etc.. The system also has the ability to link with service providers to enable the consumer to secure a reservation for transportation to the event. Claim 1 can be interpreted in more than one manner. One interpretation is that the "event" the consumer is getting a ticket for is an airline flight. An airline flight is an event. The consumer can secure the airline flight reservation and then choose an option for ground transportation (for example see column 18, lines 40-end). Choosing ground transportation is an indication that an identifier (ground transportation icon or link) has been selected. Data is then provided that represents an arrangement for the ground transportation (i.e. taxi) from the consumer's home to the

event (the airport to catch the flight). Another interpretation commensurate with the disclosure of DeLorme that satisfies what is claimed is a consumer purchasing a ticket for an opera, and then securing a train ticket to the city where the event is to take place in. DeLorme discloses the method and system as claimed.

With respect to claim 5, a consumer may choose to rent a rental car for ground transportation to the event and this is the same as securing a specific seat in the ground transportation vehicle (the driver seat). The driver must sit in the driver's seat. In the example of choosing to utilize rail (train) for ground transportation a specific seat would be secured for the consumer.

For claim 6, DeLorme discloses that the ticket for admission to the event can be purchased prior to securing ground transportation.

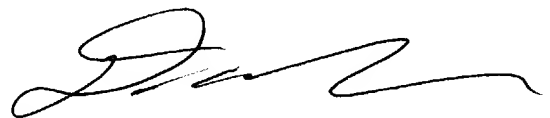

For claim 7, when one reserves a seat on a flight, a route is specified, which is the start and finishing of the flight.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Jones et al. (20020156661), Garback (5237499), Wilder (5408417), and Sehr (6085976) are considered relevant by the examiner.
